

Erneszt Kovács

Project Manager

At ACR+

Erneszt Kovács is a Project Manager at ACR+, specialised in bio-waste and applied waste management. He is involved in four projects (**URBAN-WASTE**, **DECISIVE**, **LIFE TACKLE** and **INTHERWASTE**) in link with its area of expertise and provides additional support for ACR+ technical work regarding publications and data collection and monitoring.

Background

Erneszt obtained a master degree in Environmental Engineering with a focus on waste management from the University of Novi Sad, Serbia and did a research on biogas measurements at the Institute for Waste Management at BOKU Vienna. He completed a traineeship at the Waste Management and Recycling unit of the European Commission (DG Environment) and previously worked for the European Biogas Association as the Technical Advisor.
