

Jean-Benoît Bel

Senior Project Manager

Senior Expert

At ACR+

Jean-Benoît Bel is a Senior Project Manager and Senior Expert at ACR+, specialised in waste monitoring and benchmarking. He is in charge of the **European Observatory for municipal waste recycling performances** and involved in different projects (**URBAN-WASTE**, **DECISIVE**, and **COLLECTORS**) on the technical aspects of waste management, especially regarding waste data collection and the organic waste fraction.

Background

Jean-Benoit is an environmental engineer holding a degree in general engineering from the École Centrale de Lille (France) and a Master degree in environmental engineering from the Technical University of Denmark. He has worked for 9 years for the Paris Region Waste Observatory (ORDIF) for which he defined the environmental impact assessment of waste management and developed the implementation of European projects.
