OUR MISSION

The Interreg Euro-MED Innovative Sustainable Economy mission works to boost a fair transition to a circular economy through two governance projects that develop innovative technical knowledge and ensure these new solutions are transferred into public policies. The Thematic Community Project embraces the know-how of the mission scope, along with the policy alignment ensured by the Institutional Dialogue Project, to improve the capacity of policymakers and stakeholders from the quadruple helix to uptake and enhance valuable results and promote multilevel coordination for better Mediterranean governance. The project kicked off in January 2023 and will run until September 2029. Beyond the Interreg Euro-MED Programme area, the mission is committed to promoting cooperation with stakeholders from Southern and Eastern Mediterranean countries.
