About the organisation	The Belgian Technical Cooperation (BTC) is exclusively devoted to formulate and implement Belgian direct bilateral cooperation through the DGDC. Within this framework, projects and programs managed by the Belgian Technical Cooperation are focused on sustainable human development. Thus, the Belgian Technical Cooperation aims to reduce poverty worldwide through the strengthening of democracy and consolidation of the rule of law. In partnership with governments of countries where working, the BTC participates in the international community efforts to eliminate poverty. BTC works for the Belgian state and other development partners.

General procedure for aid

With the country, the BTC is responsible for the implementation of various programs and projects selected by the DGDC. Requests for support should be directed to the DGDC.

The CTB is implementing missions on behalf of other donors, such as the European Commission, World Bank, etc.. Its operations are frequently carried out in co-financing with other donors (countries or organizations), which allows to make scales economies and increase the impact of interventions.
